Report on the review of quarterly information - ITR

(A free translation of the original report in Portuguese, as filed with the Brazilian Securities and Exchange Commission - CVM, prepared in accordance with the accounting practices adopted in Brazil, rules of the CVM and the International Financial Reporting Standards - IFRS)

To
Board Members and Shareholders of
Multiplan Empreendimentos Imobiliários S.A.
Rio de Janeiro - RJ

Introduction

We have reviewed the individual and consolidated interim accounting information of Multiplan Empreendimentos Imobiliários S.A.("Company"), contained in the quarterly information form - ITR for the quarter ended June 30, 2017, which comprise the balance sheet and related statements of income, of comprehensive income, and changes in shareholders' equity and in cash flows for the three and six months then ended, including explanatory notes.

Management is responsible for the preparation of the individual interim accounting information in accordance with the Accounting Pronouncement CPC 21(R1) - Interim Statement and consolidated interim accounting information in accordance with CPC 21(R1) and the international accounting rule IAS 34 - Interim Financial Reporting, which takes into consideration OCPC 04 on the application of ICPC 02 to real estate development entities in Brazil, issued by the CPC and approved by the CVM and the CFC , as well as the presentation of this information in accordance with the standards issued by the Brazilian Securities and Exchange Commission, applicable to the preparation of quarterly information - ITR. Our responsibility is to express our conclusion on this interim accounting information based on our review.

KPMG Auditores Independentes, a Brazilian entity and a member firm of the KPMG network of independent member firms affiliated with KPMG International Cooperative ("KPMG International"), a Swiss entity.

KPMG Auditores Independentes, uma sociedade simples brasileira e firma-membro da rede KPMG de firmas-membro independentes e afiliadas à KPMG International Cooperative ("KPMG International"), uma entidade suíça.

Scope of the review
We conducted our review in accordance with Brazilian and International Interim Information Review Standards (NBC TR 2410 - *Revisão de Informações Intermediárias Executada pelo Auditor da Entidade* and ISRE 2410 - Review of Interim accounting information Performed by the Independent Auditor of the Entity, respectively). A review of interim information consists of making inquiries primarily of the management responsible for financial and accounting matters and applying analytical procedures and other review procedures. The scope of a review is significantly less than an audit conducted in accordance with auditing standards and, accordingly, it did not enable us to obtain assurance that we were aware of all the material matters that would have been identified in an audit. Therefore, we do not express an audit opinion.

Conclusion on the individual and consolidated interim financial information prepared in accordance with CPC 21 (R1)
Based on our review, nothing has come to our attention that causes us to believe that the accompanying individual interim financial information included in the ITR referred to above is not prepared, in all material respects, in accordance with CPC 21 (R1), applicable to the preparation of Interim Financial Information - ITR, and presented in accordance with the standards issued by CVM applicable to the preparation of Interim Financial Information - ITR.

Conclusion on the consolidated interim financial information prepared in accordance with international standard IAS 34, which considers technical guideline OCPC 04 on the application of technical interpretation ICPC 02 to real estate development entities in Brazil, issued by the CPC and approved by the CVM and the CFC
Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim financial information included in the ITR referred to above is not prepared, in all material respects, in accordance with IAS 34, which takes into consideration OCPC 04 on the application of ICPC 02 to real estate development entities in Brazil, issued by the CPC and approved by the CVM and the CFC, applicable to the preparation of Interim Financial Information - ITR, and presented in accordance with the standards issued by CVM.

Emphasis of matters
We draw attention to Note 2 to the interim financial information, which states that the individual and consolidated interim financial information have been prepared in accordance with accounting practices adopted in Brazil (CPC 21 (R1)). The consolidated interim financial information, prepared in accordance with International Financial Reporting Standards - IFRS applicable to real estate development entities, also considers technical guideline OCPC 04 issued by the CPC. Such technical guideline addresses the recognition of real estate revenues and involves issues related to the meaning and application of the concept of continuous transfer of risks, rewards and control on the sale of real estate units, as detailed in note 2. Our conclusion does not contain any qualification regarding this matter.

Other matters

Interim information of added value
We also reviewed the individual and consolidated Statements of added value for the six months period ended June 30, 2017, prepared under the responsibility of the Company`s management, for which presentation is required in the interim information in accordance with the standards issued by the Brazilian Securities and Exchange Commission applicable to the preparation of quarterly information - ITR, and considered as supplementary information by IFRS, which does not require the presentation of the statements of added value. These statements were submitted to the same review procedures described previously and, based on our review, we are not aware of any fact that might lead us to believe that they were not prepared, in all material respects, in accordance with the individual and consolidated interim accounting information, taken as a whole.

2 Presentation of quarterly information and accounting policies

2.1 Statement of conformity regarding the IFRS and Accountant Statements Committee - CPC standards

This quarterly information includes:

a. The consolidated interim quarterly information was prepared in accordance with CPC 21 (R1) - Interim Statement, OCPC 04 guideline on the application of the ICPC 02 to Brazilian real estate development companies in Brazil and IAS 34 - Interim Financial Report, issued by International Accounting Standard Board - IASB, and presented in accordance with the standards issued by the Securities Commission ("CVM"), applicable to the preparation of the Quarterly Information - ITR;

b. The parent company's quarterly information, prepared in accordance with the accounting practices adopted in Brazil, which comprise the CVM standards and the pronouncements, interpretations and guidance issued by CPC, CVM and CFC, including OCPC 04 - Guidance on the application of Technical Interpretation ICPC 02 to Brazilian Real Estate Development Entities.

In addition, the Company considered the guidelines provided for in Technical Guideline OCPC 07, issued by CPC in November 2014, in the preparation of its Quarterly information. Accordingly, relevant information of the quarterly information is being evidenced and corresponds to the information used by Management when administrating.

In the individual quarterly information, subsidiaries and joint ventures, with or without a legal personality, are accounted for under the equity method and adjusted in proportion to the interest held in the Group's contractual rights and obligations. The same adjustments are made both in individual quarterly information as to consolidated quarterly information, in order to obtain the same net income and shareholders' equity attributable to Parent company's shareholders. In the case of Multiplan Empreendimento Imobiliários S.A., the accounting practices adopted in Brazil applicable to the individual quarterly information differ from IFRS applicable to separate quarterly information only in relation to the measurement of investments in subsidiaries, joint ventures and associated companies under the equity method, instead of cost or fair value in accordance with IFRS.

Since the differences between consolidated shareholders' equity and consolidated income attributable to the parent company's shareholders, included in consolidated quarterly information prepared in accordance with IFRS and Brazilian accounting practices, and shareholders' equity and parent company result, included in individual quarterly information prepared in accordance with Brazilian accounting practices adopted in Brazil are not material, the Company opted to present this individual and consolidated quarterly information in a single set, side by side.

2.2 Measuring basis

The individual and consolidated quarterly information has been prepared based on the historical cost, except for certain financial instruments measured at fair value, as described in the note 25 below.

2.3 Basis of consolidation

As of June 30, 2017 and December 31, 2016, the consolidated quarterly information is comprised by quarterly information of the Company and its subsidiaries, as follows:

Deferred income and social contribution taxes, net	(170,163)	(163,563)	(169,308)	(161,612)

(a) For the calculation of deferred income tax, only the share of employee profit sharing was considered.

(b) The Company recognized deferred income tax by fully derecognizing deferred charges.

(c) In the consolidated, the basis for the deferred assets and liabilities are composed also by entities subject to the calculation of IRPJ and CSLL by the deemed profit basis. For this reason, the effect of the taxes rates includes the taxes rates used in the income presumption, according to the federal law, and may vary depending on the income nature.

(d) Goodwill on acquisition of Multishopping Empreendimentos Imobiliários S.A., Bozano Simonsen Centros Comerciais S.A. and Realejo Participações S.A. based on expected future earnings. Such companies were then merged and the respective goodwill reclassified to intangible assets. These companies were subsequently merged and the related goodwill was reclassified to intangible assets. Pursuant to the new accounting standards, beginning January 1, 2009 such goodwill is no longer amortized and deferred income tax liabilities on the difference between the tax base and the book value of the related goodwill was accounted for. For tax purposes, the amortization of goodwill was terminated on November 2014.

(e) The Company formed income tax and social contribution on deferred taxation of straight-line income during the term of the contract, regardless of the receipt term. As of 2015, with the enactment of Law 12,973, of May 13, 2014, this income started being taxed on an accrual basis. Thus, the deferred balance up to December 31, 2014 will be subjected to taxation upon its realization.

(f) According to the tax criterion, the income (loss) on the sale of real estate units is determined based on the financial realization of income (cash basis) while for accounting purposes such transactions are accounted for on the accrual basis.

(g) The Company recognized deferred income tax liabilities on differences between the amounts calculated based on accounting method and criteria, as prescribed in Law No. 12.973 dated May 13, 2014.

Deferred income tax and social contribution will be realized based on Management's expectation, as follows:

The financial information referring to the joint ventures was based on the trial balances presented by these companies on the closing date of the period.

As of June 30, 2017, the Company has no commitments assumed with its jointly-controlled subsidiaries. Additionally, these joint ventures have no contingent liabilities, other comprehensive income and other disclosures required by CPC 45 - Disclosure of Interest in Other Entities (IFRS 12) beside the ones abovementioned.

9 Investment properties

Multiplan measured internally its investment properties at fair value based on the Discounted Cash Flow (DCF) method. The Company calculated the present value by using a discount rate following the Capital Asset Pricing Model (CAPM) model. Risk and return assumptions were considered based on studies conducted by Mr. Damodaran (New York University professor) relating to the stock market performance of the Company (beta), in addition to market prospects (Central Bank of Brazil - BACEN) and data on the risk premium of the domestic market (country risk). Based on these assumptions, the Company used a nominal, unlevered weighted average discount rate of 13.22% as of June 30, 2017, resulting from a basic discount rate of 12.84% calculated in accordance with the CAPM model, and, based on internal analyses, a spread from 0 to 200 basis points was added to this rate, resulting in an additional weighted average spread of 38 base points in the valuation of each shopping mall, corporate tower and project.

Cost of own capital	**June 2017**	**December 2016**
Risk free rate	3.42%	3.42%
Market risk premium	6.11%	6.11%
Adjusted beta	0.79	0.79
Country risk	278 b.p.	270 b.p.
Additional spread	38 b.p.	38 b.p.
Cost of own capital - US$	11.42%	11.30%

Inflation assumptions	**June 2017**	**December 2016**
Inflation (BR) - (i)	4.06%	4.59%
Inflation (USA)	2.40%	2.40%
Cost of own capital - R$	13.22%	13.69%

(e) Inflation (BR) of June 2017 refers to the weighted average for the period between July 2017 and June 2021. Inflation (BR) December 2016 refers to the weighted average for the period between January 2017 and December 2020.

The investment properties valuation reflects the market participant concept. Thus, the Company does not consider in the discounted cash flows calculation taxes, income and expenses relating to management and sales services.

The future cash flow of the model was estimated based on the shopping centers' individual cash flows, expansions and office buildings, including the Net Operating Income (NOI), recurring Key money (based only on mix changes, except for future projects), Income from Transferring Charges, investments in revitalization, and construction in progress. Perpetuity was calculated considering a real growth rate of 2.0% for shopping malls and of 0.0% for office buildings.

The Company classified its investment properties in accordance with their statuses. The table below describes the amount identified for each category of property and presents the amount of assets in the Company's share:

	Parent company	
Valuation of investment properties	**June 2017**	**December 2016**

Total	17,287,360	16,567,831

(ii) Increases of interest of 14.8% in BarraShopping and 8.0% in MorumbiShopping, occurred in the fourth quarter of 2016, are considered in the line Shopping Centers and commercial towers in operation of the Consolidated, without effect on the Parent Company, as well as the increase in the interest of 9.3% in ParkShoppingBarigui, carried out in the 1Q17.

The interest of 37.5% in the Shopping Santa Úrsula and 50.0% in the Parque Shopping Maceió project through joint ventures were not considered in the consolidated valuation.

Due to several works and expansions recently held in June 2016 the Company reviewed the useful lives of certain joint ventures lease and investment properties:

The effect of this review in the Company's depreciation expense in 2016 totaled R$ 5,426, and the estimated effect for 2017 totals R$ 10,852 (decrease in both cases).

The following shopping malls and joint ventures had their useful life reassessed:

(a) The goodwill recorded has its origin in the acquisitions made in the year 2006. Such goodwill was based on the expected future earnings from these investments and were amortized until December 31st, 2008.

(b) The goodwill recorded has its origin in the acquisitions made in the year 2007, were based on the expected future return on these investments, and amortized until December 31, 2008.

(c) In order to strengthen its internal control system while sustaining a solid growth strategy, the Company started implementing SAP ECC System. To make this implementation viable, the Company entered with SAP Brasil Ltda., into two software license and maintenance contracts, dated June 24, 2008. Additionally, the Company entered into a service agreement with IBM Brasil - Indústria, Máquinas e Serviços Ltda, on June 30, 2008 for the deployment of such tool. From then, the Company has commissioned services of evaluation and implementation of new SAP functionalities, aimed at promoting greater efficiency, transparency, and autonomy to the managers of the company.

The goodwill based on future returns do not have a calculable useful life, and hence are not amortized. The Company tests these assets' recoverable value annually by mean of an impairment test.

The others intangible assets with defined useful life are amortized by the straight-line method based on the table above.

Impairment test for goodwill validation was carried out considering the projected cash flow in the shopping malls that presented goodwill upon their establishment. The assumptions used to prepare this cash flow are described in Note 9. In case of changes in the main assumptions used to determine recoverable value of cash generating units, goodwill with indefinite useful life allocated to the cash generating units plus carrying values of investment properties (cash generating units) would be substantially lower than fair value of investment properties, that is, there are no signs of impairment losses in the cash generating units since the last evaluation conducted on presentation of quarterly information for the period ended June 30, 2017.

(a) On November 19, 2009, the Company entered into with Banco ABN AMRO Real S.A., later merged into Banco Santander, a loan agreement to finance the renovation and expansion of BH Shopping, in the amount of R$102,400. Such financing bore interest of 10% p.a. plus the Referential Rate (TR), and will be amortized in 105 monthly, monthly installments beginning December 15, 2010. The loan is collateralized by the chattel mortgage of 35.31% of the financed property, which results in an amount of R$153,599 (contract execution date) for the collateralized portion, and assigned the receivables from lease contracts and the rights on the financed property, which correspond, at least, to a minimum volume equivalent to 120% of one monthly installment until the debt is fully settled. On August 28, 2013, the 1st amendment to the financing agreement was signed, changing: (i) the financial covenant of total bank debt / EBITDA less than or equal to 4 times to "net bank debt" / EBITDA less than or equal to 4 times, (ii) the rate of operation of TR + 10% p.a. to TR + 8.70% p.a.

Financial Covenants of the contract:
Total debt/ shareholders' equity less than or equal to 1.
Net debt/ EBITDA less than or equal to 4x.

Ebtida used to calculate financial covenants follow the definition set forth in the loan agreements.

(b) On August 07, 2013, the subsidiaries Multiplan Greenfield II Empreendimento Imobiliário Ltda and Multiplan Greenfield IV Empreendimento Imobiliário Ltda signed with Banco Santander S.A. a loan agreement to finance the construction of the project Morumbi Corporate, located in São Paulo. The total contracted amount was R$ 400,000, and each company was responsible for its interest in the project, as follows: 49.3104% to Multiplan Greenfiled II and 50.6896% to Multiplan Greenfiled IV. This financing bears interest of 8.70% p.a., plus the Reference Rate (TR), and has been amortized in 141 monthly installments beginning November 15, 2013. As of December 31, 2015, the financing had been fully released. As a collateral for the loan, the subsidiaries collateralized the fraction of 0.4604509 of financed property. Such fraction is represented by a number of independent units, and assigned the receivables from lease contracts and the rights on the financed property, which shall correspond, at least, to a minimum volume equivalent to 120% of the amount of one monthly installment until the debt is fully settled. In addition to these guarantees, the Parent Company Multiplan Empreendimentos Imobiliários was the guarantor of the subsidiaries. There are no financial covenants herein.

(c) On August 10, 2010, the Company entered into a bank credit bill with Banco Itaú BBA S.A. for the construction of ParkShopping SãoCaetano, amounting to R$140,000. This credit note bore interest based on the Reference Rate (TR) plus 9.75% p.a. and it will be amortized in 99 consecutive, monthly installments, the first maturing on June 15, 2012. All financing amount was released through December 31, 2015. As collateral for the loan, the Company assigned the receivables from lease agreements and store rights in the financed developments, which should correspond, at least, to a minimal movement equivalent to 120% of one monthly installment, since the inauguration of Park Shopping São Caetano, until the debt is fully settled. On September 30, 2013, the 1st amendment to the financing agreement was signed, changing: (i) the contract's adjustment rate from Reference Rate (TR) + 9.75% per annum to TR + 9.35% per annum, and (ii) the final amortization deadline from August 15, 2020 to August 15, 2025.

(d) On November 30, 2010, the Company entered into a bank credit bill with Banco Itaú BBA S.A. for the construction of Shopping Village Mall, amounting to R$270,000. Such financing bears interest based on the Reference Rate (TR) plus 9.75% p.a. and it will be amortized in 114 consecutive, monthly installments, the first maturing on March 15, 2013. All financing amount was released through December 31, 2015, including the additional amount of R$50,000, signed on July 4, 2012. The credit note is collateralized by mortgage on the land and all accessions, constructions, facilities and improvements therein, which were assessed at the amount of R$370,000 as at that date. Additionally, the Company assigned the receivables from lease agreements and rights on the stores in the financed development, which correspond, at least, to a minimal movement equivalent to 100% of the amount of one monthly installment, beginning January 2015, until the debt is fully settled. On July 4th, 2012, the Company signed an amendment to the bank credit bill for the construction of Shopping Village Mall, changing the following: (i) the total amount contracted from R$270,000 to R$320,000, (ii) The covenant of net debt to EBITDA from 3.0x to 3.25x, and (iii) The starting date for checking the restricted account from January 30, 2015 to January 30, 2017. On September 30, 2013, the 2nd amendment to the financing agreement was signed, changing: (i) the contract's adjustment rate from Reference Rate (TR) + 9.75% per annum to TR + 9.35% per annum, (ii) the final amortization deadline from November 15, 2022 to November 15, 2025, and (iii) the net debt covenant from 3.25 times the EBITDA to 4.0 times the EBITDA.

All other terms of the original contract remain unchanged.
Financial Covenants of the contract:
Net debt/ EBTIDA less than or equal to 4.0 x.
EBITDA/ net financial expenses greater than or equal to 2x.
Ebtida used to calculate financial covenants follow the definition set forth in the loan agreements.

(e) On August 6, 2012, the Company contracted eight credits notes (CCB), with Banco Itaú BBA, in total amount of R$100,000 in order to consolidate its cash position. No guarantee was formed for such instruments. The interest will be paid semiannually and principal in 1 installment to be paid on August 8, 2016. On October 20, 2015, the Company agreed-upon an amendment with the bank to change maturity to September 15, 2018 and rate to 108.50% of CDI.

Provisions for administrative proceedings and lawsuits processes were recognized to cover probable losses on administrative proceedings and lawsuits related to civil, tax and labor issues, in an amount considered sufficient by Management, based on the opinion of its legal advisors, as follows:

(a) The Company was a party to lawsuits involving the collection of PIS (Social Integration Program contribution) and COFINS (Social Contribution on Income) on lease income and other income that does not meet the definition of gross income, pursuant to Law No. 9,718/98, referring to the period from 1999 to 2004. The payments of these taxes were calculated in accordance with prevailing tax laws and deposited with the courts.

The provision comprised only the PIS amounts levied on lease income, considering final favorable court decisions obtained in these lawsuits disputing the levy of these contributions on other income. The Company requested in court the conversion into income of the deposits referring to the accrued portion and the release of the other amounts and the request was settled in March 2017. Accordingly, the provision was written-off against the portion of the amount deposited.

(b) The legal advisors rated as probable the likelihood of losses in some lawsuits related to real estate contract rescissions, which totaled R$ 6,104.

The remaining balance of the provisions for civil contingencies consists of various claims in insignificant amount filed against the shopping malls in which the Company holds equity interest.

Contingencies with possible likelihood of loss

The Company is a defendant in several other tax, labor and civil lawsuits and administrative proceedings, whose likelihood of loss is assessed by its legal advisors as possible and estimated amount is R$ 57,891 as of June 30, 2017 (R$ 53,438 as of December 31, 2016), as shown below:

Tax

ITBI (Property Transfer Tax) collection arising from full merges of companies which owned properties. The disputes regarding the levy of this tax are concentrated in the municipalities of São Paulo (R$ 6,249) and Belo Horizonte (R$ 5,494) and in Brasília (R$ 1,708), in all cases, the Company requests the acknowledgment of the non-applicability of ITBI (Property Transfer Tax) based on the provisions of Article 37, paragraph 4, of the Brazilian Tax Code.
The disputes in Brasília obtained unfavorable decisions in the first and second instances and are awaiting judgment by Federal Supreme Court (STF). In São Paulo, four tax collection proceedings have been filed and are still pending judgment.

In Belo Horizonte, of the four discussions, three are at administrative level awaiting analysis of the appeals filed at the first level of trial. In December 2016, the Company obtained unfavorable decision at the second level of trial in one of its lawsuits, for which judicial measure is being prepared.

The company also has a discussion in administrative instance regarding social security contributions. The Inspection issued an infraction notice requesting social security contributions on amounts related to the Company's stock option plan. The first instance decision was unfavorable and the case is in the stage of voluntary appeal.

Civil, administrative and labor

The Company is party to several civil lawsuits, administrative and labor claims, none of which is considered individually material.

Contingent assets

On June 26, 1995, the Consortium comprising the Company (successor of Multishopping Empreendimentos Imobiliários S.A.) and Bozano, Simonsen Centros Comerciais S.A., Pinto de Almeida Engenharia S.A., and In Mont Planejamento Imobiliário e Participações Ltda. advanced the amount of R$6,000 to Clube de Regatas do Flamengo to be deducted from the income earned by the Club after the opening of the shopping center located in Gávea, which was the object of the Consortium. However, the project was canceled, and Clube de Regatas do Flamengo did not return the amount advanced. The Consortium members decided to file a lawsuit claiming the Club’s reimbursement of the amount advanced.

On March 18, 2016, the Consortium signed a Private Transaction Instrument with Clube de Regatas do Flamengo, which was dully authorized by its Advisory Board on April 15, 2016. According to this Instrument, Clube agreed to pay the consortium the amount of R$ 61,500. Of this amount, the Club had already paid to the Consortium the amount of R$ 14,469 in 2012 and 2013, by releasing the amounts deposited in Court, still remaining a balance payable of R$47,031, fully settled in the second quarter of 2016.

Consequently, a petition was filed in the proceeding informing about the fulfillment of the agreement, and requiring the extinguishment of the foreclosure, granted by the Judge on June 1, 2016.

On March 9, 2017, an official letter was issued with ways to proceed with the lifting of said attachment, the only pending case still pending for the execution of the execution.

On March 16, 2017, a judgment was issued ratifying the agreement by signing, among the parties to the proceedings, the embargoes on execution, moved by the Club for dependence on the aforementioned execution, and was also deemed extinct

c. Dividends and interest on own capital

Under the article 39, item (c) of the Company's bylaws, the minimum annual compulsory dividend corresponds to 25% of net income, as adjusted pursuant to the Brazilian Corporate Law. Distribution of dividends or interest on own capital is specifically approved by the Company's Board of Directors, as set forth in the laws and article 22 item (g) of the Company's Bylaws.

Under article 39, §3 of the Company's Bylaws, the minimum compulsory dividend will not be paid in the year in which the Company's bodies inform to the Annual Shareholders' Meeting that such payment is incompatible with the Company's financial condition, it being understood that the Supervisory Board, if any, will issue an opinion thereon. Dividends so retained will be paid when the financial condition permits.

Interest on own capital approved in 2017

On June 21, 2017, the Board of Directors approved the payment of interest on own capital on the gross amount of R$ 110,000 assigned to the Company's shareholders registered as such on June 26, 2017, corresponding to R$ 0.55205752114 per share, before the withholding of 15% of income tax, except for those shareholders who are tax-exempt or tax-immune as set forth in the applicable laws. This amount will be paid to the Company's shareholders by May 31, 2018.

Interest on own capital approved in 2016

On June 27, 2016, the Board of Directors approved the payment of interest on own capital on the gross amount of R$ 95,000 assigned to the Company's shareholders registered as such on June 30, 2016, corresponding to R$ 0.50496447854 per share, before the withholding of 15% of income tax, except for those shareholders who are tax-exempt or tax-immune as set forth in the applicable laws. Such amount was paid to the Company's shareholders as of May 2, 2017.

The total amount of interest on own capital is within the limits set forth in Paragraph 1, Article 9 of Law No. 9.249/95.

	2016
Net income for the year	311,542
Allocation to legal reserve	(15,577)
Net income after deduction of the legal reserve	295,965

a. Stock option plan program (to be settled in membership certificates)

The Special Shareholders' Meeting held on July 6, 2007 approved a Stock Option Plan to its management, employees and service providers or those of other entities under the Company's control.

Such plan is managed by the Board of Directors, and the Chief Executive Officer is responsible for determining the holders of the stock options.

Options granted, under the Stock Option Plan approved in 2007, do not confer on their holders the right to buy shares based on a number of shares exceeding 7% of the Company's capital at any time. The dilution corresponds to the percentage represented by the number of stock options divided by the total number of shares issued by the Company.

The issuance of our shares through the exercise of stock options under the Stock Option Plan would result in a dilution for our shareholders since the stock options to be granted under the Stock Option Plan can confer acquisition rights on a volume of shares of up to 5% of our capital, not considering the options of the CEO or 7% considering it.

As of June 30, 2017, the percentage of stock options granted is 4.7430% of capital, without considering the CEO's options, and 5.7945% when the CEO's options are considered.

The beneficiaries eligible to the Stock Option Plan can exercise their options within up to six years as from the grant date. Each stock option granted can be converted into a Company common share at the time of exercise of the option or settled in cash. The vesting period will be of up to four years, with redemption of 33.4% after the second anniversary, 33.3% after the third anniversary, and 33.3% after the fourth anniversary.

The option price shall be based on the average price of the Company's shares of the same class and type over the last 20 (twenty) trading sessions on the São Paulo Stock Exchange (Bovespa) immediately prior to the option grant date, weighted by the trading volume, adjusted for inflation based on the IPCA, or based on any other index determined by the Board of Directors, through the option exercise date.

The Company offered nine stock option grants from 2007 to June 30, 2017, which satisfy the maximum limit of 7% provided for in the plan:

The vesting periods to exercise the options are as follows:

(1) Net value of shares canceled due to the termination of the Company's employees before the minimum option exercise term.

(2) Price set by the end of the period or the date of exercise.

For stock options exercised during 2013, the weighted average market price of shares was R$ 58.21. In 2014, the weighted average market price of the shares was R$ 53.21. In 2015, the weighted average market price of the shares was R$ 55.79. In 2016, the weighted average market price of the shares was R$ 58.81. In the first six months of 2017, the weighted average market price of the shares was R$ 68.40.

The effect of the recognition of share-based payment in the shareholders' equity and in income (loss), in the quarter ended June 30, 2017, was R$ 2,265 (R$4,450 as of June 30, 2016) of which R$1,102 (R$ 3,740 in 2016) refers to the management's portion.

b. Phantom Stock Option Program

In Board of Directors' meeting held on July 29, 2015, the Company's First Long-Term Incentive Plan was approved; it establishes the terms and conditions for payment of a cash premium referred to valuation of shares issued by the Company to certain managers, employees and service providers or other companies under its control. Right to receive this premium is represented by units of investment, and the Board of Directors is responsible for electing participants and for authorizing the granting of investment units.

As of July 29, 2015, the Board of Directors approved the granting, in 2015, of 2,500,983 units of investment to elected participants. Of this total, 16,000 investment units were granted to employees that left the Company before minimum period for redeeming investment units.

As of September 21, 2016, the Board of Directors approved the granting, in 2016, of 2,500,750 units of investment to elected participants.

These units of investment may be redeemed by participants in three distinct tranches, within maximum period of six years as from respective grant date. The vesting period for the redemption of investment units is two years, with redemption of 33.4% after the fourth anniversary, 33.3% after the third anniversary, and 33.3% after the fourth anniversary.

Cash value to be disbursed in relation to investment units is based on the increase in share price of the Company between the grant date and redemption period.

Details of liabilities deriving from units of investment are as follows:

	Consolidated
In thousands of reais	
Book value of liabilities from units of investment	36,054

(i) Measurement of fair value

Weighted average fair value of units of investment was estimated using options pricing model Black-Scholes. The dividend yield was based on Company's internal models considering the maturity of each unit of investment. The Company did not consider the option's anticipated investment units and any market condition other than the assumptions below.

Fair value in the grant date was calculated considering the following assumptions:

Fair value in the grant date

	Referential value (R$) (1)	Share price (R$) (2)	Index of adjustment	Quantity	Volatility MULT3 (3)	Risk-free rate	Maturity average	Fair value
Phantom 1	46.71	46.27	IPCA (National Amplified Consumer Price Index)	2,500,983	5.5%-5.8%	11.3%-12.3%	3.00 years	R$ 5.68
Phantom 2	61.38	61.47	IPCA (National Amplified Consumer Price Index)	2,500,750	5.9%-6.5%	10.7%-11.5%	3.00 years	R$ 7.85

(1) Investment units' reference value on grant date corresponds to average quotation of the Company's shares in BM&FBOVESPA, calculated by division of financial volume by the number of traded shares accumulated in 20 trading sessions immediately prior to their calculation base date.

(2) Share price corresponds to average of 20 sessions prior to the closing date of the quarter.

(3) Volatility used in this model was based on MULT3 historic standard deviation in proper period.

The fair value on the date of the financial statements was calculated assuming the following assumptions:

Fair value at June 30, 2017

	Referential value (R$)	Share price (R$)	Index of adjustment	Quantity	Volatility MULT3	Risk-free rate	Maturity average	Average fair value
Phantom 1	52.49	65.28	IPCA (National Amplified Consumer Price Index)	2,484,983	5.4%-6.3%	8.5%-9.3%	1.08 years	R$ 14.55
Phantom 2	62.76	65.28	IPCA (National Amplified Consumer Price Index)	2,500,750	5.3%-6.3%	8.4%-8.5%	2.23 years	R$ 6.44

24 Segment information

For management purposes, the Company recognizes four business segments that account for its income and expenses. Segment reporting is required since margins, income and expense recognition and deliverables are different among them. Profit or loss was calculated considering only the Company's external clients.

Properties for rental

This refers to the Company's share in the civil condominium of shopping malls and their respective parking lots, as well like real estates for rental. This is the Company's major income-generating segment, accounting for 92.43% of its gross income recognized during the quarter ended June 30, 2017. The determining factor for the amount of income and expenses in this segment is the company's share in each venture. The income and expenses are described below:

Rental income

This refers to amounts collected by mall owners (the Company and its shareholders) in connection with the areas leased in their shopping malls and commercial projects. The income includes four types of rental: minimum Rental (based on a commercial agreement indexed to the IGP-DI), Supplementary Rental (percentage of sales made by storeowners), Merchandising (rental of an area in the mall) and straight-line rental income (exclude the volatility and seasonality of minimum rental income).

Parking income

Income from payments made by clients for the time their vehicles are parked in the parking lot.

Expenses

Include expenses on vacant areas, contributions to the promotion fund, legal fees, lease, parking, brokerage fees, and other expenses arising from the interest held in the projects.

As owners of the properties in which they are the shopping malls in which the Company owns (or situations which ownership of the property stems from the lease), the Company is subject to the payment of any extraordinary expenses that are not routine and therefore, condominium liability. The Company is also subject to costs and costs of legal actions necessary for the collection of past due rents, lawsuits in general (eviction, lease renewal, revisional, among others). The expenses on the maintenance and operation expenses (common condominium expenses) of the project will be borne by the storeowners.

Other

Includes depreciation expenses.

The shopping mall assets substantially comprise investment properties of operational shopping malls and commercial towers operating and rental receivable and parking lots.

Real estate for sale

Real estate operations include income and expenses from the sale of properties normally built in the surroundings of the shopping mall. As previously mentioned, this activity contributes to generating client flows to the shopping mall, thus increasing its Income (loss). Additionally, the appreciation and convenience brought by a shopping mall to its neighborhood enable the Company to minimize risks and increase income from properties sold. Income derives from the sale of properties and their related construction costs. Both are recognized based on the percentage of completion (POC) of the construction work. Expenses arise mainly from brokerage and marketing activities.

Finally, the "Other" mainly concerns a real estate project that has been recognized in the balance sheet and income (loss) by "Investment" and "Share of profit of equity-accounted investees (loss)" respectively.

Assets of this segment are concentrated in the inventory of land and property completed and under construction of the Company and in accounts receivable.

Projects

The operation of projects includes income and expenses arising from the development of shopping mall and real estate project for lease. Development costs are recorded in the balance sheet, but expenses on marketing, brokerage, property taxes, feasibility studies and other items are recorded to the Company's income (loss). In the same way, the company believes that most of its income from Key money derives from projects initiated over the last 5 years (average period to recognize income from key money), thus resulting from the lease of stores during the construction process.

By developing its own projects, the company is able to ensure the quality of the properties that will compose its portfolio.

Project assets mainly comprise investment properties that have a construction in progress and accounts receivable (Key money) from leased stores.

Management and other

The Company provides management services to its shareholders and storeowners in consideration for a service fee. Additionally, the Company charges brokerage fees from its shareholders for the lease of stores. The management of its shopping malls is essential for the Company's success and is a major area of concern in the company. On the others hand, the Company incurs in expenses on the Headquarters for these services and others, which are considered in this segment. This also includes taxes, financial income (loss) and expenses and others income and expenses that depend on the company's structure and not only on the operation of each segment previously described. For this reason this segment presents loss.

This segment's assets mainly comprise the Company's cash, deferred taxes and intangible assets.

25 Financial instruments and risk management

25.1 Capital risk management

The Company and its subsidiaries manage its capital in order to ensure the continuity of its normal operations, at the same time, maximizing the return of its operations to all interested parties, through the optimization of the use of debt instruments and capital.

The capital structure of the Company and its subsidiaries is comprised by the net debt (loans and financing, debentures and Property acquisition obligations detailed in notes 12, 14 and 15, respectively, less cash and cash equivalents and short-term investments (detailed in note 3) restricted short-term investments (recorded as other non-current assets), and the Company's shareholders' equity (which includes the capital and reserves explained in note 19).

25.1.1 Indebtedness ratio

Indebtedness ratio is as follows:

	Parent company		Consolidated	
	06/30/2017	**12/31/2016**	**06/30/2017**	**12/31/2016**
Debt (a)	2,227,450	2,270,727	2,950,069	2,923,110
Cash and cash equivalents and investment	(901,536)	(408,485)	(1,005,173)	(467,368)
Net debt	1,325,914	1,862,242	1,944,896	2,455,742
Shareholders' equity (b)	5,112,306	4,450,170	5,120,666	4,456,360
Net debt ratio	25.94%	41.85%	37.98%	55.11%

(a) Debt is defined as short- and long-term loans and financing, debentures and Property acquisition obligations, detailed in notes 12, 14 and 15.

Of total defined in item (a) above, R$ 279,046 refers to the amount classified in the parent company and maturing in the short-term on June 30, 2017 (R$ 292,024 on December 31, 2016) and R$1,948,404 classified in the long term on June 30, 2017 (R$ 1,978,703 on December 31, 2016). In the consolidated financial statements, as of June 30, 2017, R$ 446,465 is classified as short term (R$ 409,643 - December 31, 2016) and R$ 2,503,604 as long term as of June 30, 2017 (R$ 2,513,465 on December 31, 2016).

(b) Shareholders' equity includes the paid-in capital and the reserves.

25.2 Market risk

In the sector in which the Company operates, the principal market risks are financial risks related to interest, credit inherent in the provision of services and credit derived from its cash investments.

25.3 Objectives of financial risk management

The Company's main strategies to protect its equity against market risks are as follows: (a) the compatibility significantly between its financial assets and liabilities, aligning time, cost, indexing, and other currencies; (b) the diversification of its income and receivables between the different properties of the Company and the different retail segments derived from the assortment of the stores; (c) the application of liquidity on a conservative basis, in investments with immediate liquidity and low credit risk.

The Company, based on its strategy of protecting its equity against market risks, understands that to date there was no need to contract any hedging instrument. This position may be reviewed if, in the future, we observe any inconsistency that could cause risks to the financial and operating income (loss) of the Company.

According to CVM Resolution 550 issued on October 17, 2008, which provides for the submission of information on derivative financial instruments in the notes, the Company has not contracted derivative financial instruments; there is no risk from a potential exposure associated with such instruments.

25.4 Interest rate risk management

Interest rate risk refers to:

- Possibility of fluctuations in the fair value of loans and financing pegged to fixed interest rates, if such rates do not reflect current market conditions. The Company performs ongoing monitoring of these indexes. The Company has not verified yet the need to enter into financial instruments to hedge against interest rate risks;

- Possibility of unfavorable change in interest rates, which would result in increase in financial expenses as a result of the debt portion pegged to variable interest rate; and

- Possibility of variations in the fair value of its investment properties, due to effects of variations in the interest rate in the indicators of risk and return used in the calculation of the discount rate, including beta index, country risk and inflation estimates. The Company performs ongoing monitoring of these indexes.

25.5 Credit risk related to service rendering

This risk is related to the possibility of the Company and its subsidiaries posting losses resulting from difficulties in collecting amounts from lease, property sales, Key money, management fees and brokerage fees.

25.6 Credit risk

This risk is related to the possibility of the Company and its subsidiaries posting losses resulting from difficulties in realizing short and long-term financial investments.

25.7 Sensitivity analysis

In order to analyze the sensitivity of financial asset and liability index to which the Company is exposed as at June 30, 2017, five different scenarios were defined and a sensitivity analysis to fluctuations in the indexes of such instruments was prepared. Based on the FOCUS report dated June 30, 2017, the IGP-DI, IGP-M and IPCA indexes and TJLP, projections for 2017 was extracted from the BNDES's official website, the indexes CDI and the TR rate were extracted from the CETIP's and BM&F BOVESPA's official websites, such index and rates were considered as probable scenario and increases and decreases of 25% and 50% were calculated.

Indexes of financial assets and liabilities:

Index	Decrease of 50%	Decrease of 25%	Probable scenario	Increase of 25%	Increase of 50%
CDI	5.13%	7.69%	10.25%	12.81%	15.38%

Part of the Company's financial assets and liabilities are linked to interest rates and indexes which may vary representing a market risk for the Company.

In the quarter ended June 30, 2017, the Company's financial assets and liabilities generated a net financial income of R$ 112,260.

The Company understands that an increase in the interest rates, in the indexes or in both may cause an increase in the financial expenses negatively impacting the Company's net financial income. In the same way, a decrease in the interest rates, in the indexes or in both may cause a reduction in the financial income negatively impacting the Company's net financial income.

25.8 Liquidity risk management

The Management of the Company and its subsidiaries manages its liquidity risk keeping adequate reserves, bank credit lines and credit lines to raise loans and financing, through the continuous monitoring of forecasted and realized cash flows and combination of the maturity profiles of financial assets and liabilities.

The following table shows in detail the remaining contractual maturity of financial assets and liabilities of the Company and the contractual amortization terms. This table was prepared in accordance with the undiscounted cash flows of financial assets and liabilities based on the nearest date on which the Company shall settle the respective obligations:

Valuation techniques and assumptions applied for purposes of fair value calculation

The estimated fair values of financial assets and liabilities of the Company and its subsidiaries have been determined using available market information and appropriate valuation methodologies in conformity with the quarterly information for the quarter ended June 30, 2017.

Financial instruments measured at fair value are grouped into specific categories (level 1, 2 and 3) according to the corresponding observable level of fair value:

- Measurements of the fair value of level 1 are obtained from quoted prices (unadjusted) in active markets for identical assets or liabilities.

- Measurements of the fair value of level 2 are obtained by means of the variables in addition to the quoted prices included the level 1 that are observed for the asset or liability either directly (as prices) or indirectly (derived from prices).

- Measurements of the fair value of level 3 are obtained from non-observable market variables.

The Management understands that the fair values applicable to the Company's financial instruments fall into Level 2.
