Independent auditor's report on review of quarterly financial information

To the Shareholders, Directors and Officers
Companhia Brasileira de Distribuição
São Paulo – SP – Brazil

Introduction

We have reviewed the accompanying individual and consolidated interim financial information of Companhia Brasileira de Distribuição ("Company"), included in the Quarterly Information Form (ITR) for the quarter ended June 30, 2018, which comprise the balance sheet as of June 30, 2018 and the related statements of income and comprehensive income for the three and six months periods then ended, and the statements of changes in equity and cash flows for the six months period then ended, including other explanatory information.

Management is responsible for the preparation of individual and consolidated interim financial information in accordance with Accounting Pronouncement CPC 21 (R1) -– *Demonstração Intermediária ("CPC 21 (R1)")* and International Accounting Standard IAS 34 - Interim Financial Reporting ("IAS 34"), issued by the International Accounting Standards Board (IASB), as well as for the presentation of this information in a manner consistent with the standards issued by the Brazilian Securities and Exchange Commission (CVM) applicable to the preparation of the Quarterly Information Form (ITR). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of the review

We conducted our review in accordance with Brazilian and International Standards on Review Engagements (NBC TR 2410 *Revisão de Informações Intermediárias Executada pelo Auditor da Entidade*) and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with auditing standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on the interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying individual and consolidated interim financial information included in the quarterly information referred to above is not prepared, in all material respects, in accordance with CPC 21 (R1) and IAS 34, applicable to the preparation of Quarterly Information Form (ITR), consistently with the rules issued by the CVM.

Emphasis of matter

Restatement of corresponding figures

As mentioned in Note 5, due the adoption of the new accounting pronouncements, the corresponding individual and consolidated figures related to the statement of financial position for the year ended December 31, 2017 and the corresponding interim financial information comprising the statements of profit or loss and comprehensive income (loss) for the three and six months period ended June 30, 2017, and of changes in equity, cash flow statement and statement of value added (supplemental information) for the six-month period ended June 30, 2017, presented for comparison purposes, were adjusted and are restated as required by CPC 23 (Accounting Policies, Changes in Accounting Estimates and Error Correction) and CPC 26(R1) - Presentation of Financial Statements. Our conclusion is not modified in respect of this matter.

Other matters

Statements of value added

We have also reviewed the individual and consolidated statements of value added for the six months period ended June 30, 2018, prepared under the responsibility of the Company's management, the presentation of which in the interim financial information is required by the rules issued by the CVM applicable to preparation of Quarterly Information Form (ITR), and considered as supplementary information under IFRS – International Financial Reporting Standards, which does not require the presentation of the statement of value added. These statements have been subject to the same review procedures previously described and, based on our review, nothing has come to our attention that causes us to believe that they are not prepared, in all material respects, in a manner consistent with the overall individual and consolidated interim financial information.

São Paulo, July 24, 2018 - GPA *[B3: PCAR4; NYSE: CBD] announces its results for the 2nd quarter of 2018. - **Adjusted EBITDA margin:** 5.5%-5.6% at Multivarejo and 5.8%-5.9% at Assaí;
- **Financial Result:** around 1% of net sales;
- **LATAM synergies:** should surpass US$85 million in savings for the Brazil perimeter.

"We closed the second quarter of the year with great prospects for the GPA business. Driven by the assertiveness of the new promotional dynamics and adjustments made in the operation of the Multivarejo business, we registered a significant acceleration of the sales level, with gains in market share and improved profitability in all brands. This result reaffirms a new trend of revenue for the business. Assaí continues to deliver consistent sales growth, with market share evolution, coupled with a solid result."

OPERATING PERFORMANCE BY BUSINESS

Tax Credits

2Q18
Multivarejo sold a portion of the tax credits related to the exclusion of ICMS from the PIS / COFINS calculation bases. The gain from this sale amounted to approximately R$ 50 million (R$ 45 million net of tax). The amount was recognized as deduction from net revenue.

In the quarter, **Assaí** reversed R$369 million of a provision accrued in 2Q17 related to ICMS ST credits for periods prior to the Supreme Court (STF) decision. The changes in the monetization prospects motivated by the new legislation made it possible to justify this reversal of the provision. The amount was recognized as a deduction from cost of good sold.

2Q17
In the second quarter of last year there was recognition of non-recurring tax credits in **Multivarejo** related to the restitution of ICMS ST (Tax Substitution). The amount of R$ 447 million was recognized as a deduction from cost of good sold.

Multivarejo

Gross sales revenue of R$7.0 billion, with solid **same-store sales growth excluding the calendar effect of 5.3%.** Multivarejo captured 100 bps in market share in the quarter (source: Nielsen), led by the banners Extra Hiper and Pão de Açúcar. The expansion of commercial actions and more-successful promotional campaigns drove the strong growth at Multivarejo, with sales volumes recovering and accelerating across all banners.

Gross profit excluding tax credits amounted to R$1,816 million, with gross margin of **28.1%.** The success of these actions combined with the increased customization of offerings (My Discount) enabled the segment to maintain gross margin at similar levels to 2Q17, despite more promotional activations in the period.

Selling, general and administrative expenses amounted to R$1,489 million, **reduction of 2.7% from 2Q17**. As a ratio of net revenue, these expenses **decreased 80 bps** (23.1%) compared to 2Q17. This improvement was due to the closing of hypermarket stores and ongoing initiatives to capture efficiency gains to mitigate the effects from inflation, led by productivity gains in stores.

Adjusted EBITDA excluding tax credits amounted to R$358 million, **improving 18.6% from 2Q17,** as result of the significant evolution of sales and greater operational efficiency. **Margin reached 5.6%, improving 90 bps.**

Assaí

Gross margin came to R$5.7 billion, representing robust growth of 22.8%. This growth translated into a market share gain of around 200 bps in the quarter (source: Nielsen). **Same-store net sales ex-calendar grew 4.7% (2.5% ex-conversions).**

Gross profit excluding tax credits came to R$868 million, with gross margin of **16.4%.** Despite the negative effect from food deflation in the quarter of around -2.8%, the gross margin expansion of 50 bps was mainly due to the successful expansion over the past two years:

- 17 organic stores with accelerated maturation, reflecting a well-defined business model and market demand;
- Positive impact from store conversions, resulting in more attractive stores that better meet the needs of target market.

Regarding the new tax framework for ICMS-ST, it is important to note that 2Q17 and 2Q18 are on a comparable basis.

Selling, general and administrative expenses corresponded to 10.4% of net revenue, in line with 2Q17, reflecting the maturation of stores, despite the increase in expenses due to stronger individual customer and the higher number of stores.

Adjusted EBITDA excluding tax credits amounted to R$321 million, with margin **expanding 50 bps to 6.1%**.

FINANCIAL PERFORMANCE

Other Income and Expenses

Other Operating Income and Expenses came to R$90 million and were mainly related to:

- Expenses associated with store closures/conversions (Extra Hiper into Assaí and Extra Super into Compre Bem), in the amount of R$46 million;
- Expenses with the integration and restructuring of Multivarejo, in the amount of R$43 million.

Financial result

The Company's financial result amounted to R$148 million, or 1.3% of net sales, improving 50 bps from 2Q17. The main variations were as follows:

- Decrease in **debt cost:** in line with the decline in the CDI interest rate, from 10.9% in 2Q17 to 6.4% in 2Q18;
- Increase in the **cost of selling receivables**: despite the lower interest rate there was an increase in the volume anticipated due to the growth of sales and greater participation of non-food;
- Variations in **contingencies and other expenses:** corresponded to 0.4% of net revenue, in line with 1Q18.

Net Income

In the Food segment, the profit of the controlling shareholders of continuing operations totaled R$ 462 million, 2.4 times higher than 2Q17. Excluding tax credits reached R$ 185 million, reversing the loss of the same period of the previous year.

Consolidated net income of controlling shareholders of continuing operations reached R$ 431 million, 2.7 times higher than 2Q17. Excluding tax credits totaled R$ 153 million, reversing the loss in 2Q17.

Earnings per Share

Diluted earnings per common share was R$ 1.68439 and earnings per preferred share was R$ 1.84454 in the quarter.

Net Debt

Net debt, adjusted for the balance of unsold receivables, stood at R$2,711 million. The Company maintained its low financial leverage, with the ratio of net debt to EBITDA falling from -1.16x in June 2017 to -1.03x in June 2018.

The Company's cash balance stood at R$3,054 million and R$88 million in unsold receivables, representing R$3,143 million in cash and equivalents. The Company also has around R$1.3 billion in pre-approved/confirmed credit facilities.

Contingencies

Following the trend of the last quarters, there was a reduction of R$ 340 million in the quarter in total of possible and probable contingencies. This decrease is the result of favorable decisions regarding tax contingencies and a reduction in the volume of labor lawsuits.

Capital Expenditure

CAPEX in the Food segment came to R$ 330 million, 15.1% higher than in 2Q17, mainly due to the following:

- Expansion of Assaí: 3 Assaí stores were opened, one of which was converted from an Extra Hiper. Around 20 stores are slated to open this year, including new and converted ones.
- Renovation of Pão de Açúcar stores: 6 stores were renovated in the quarter under the Generation 7 concept, as part of the plan to renovate around 20 stores in 2018. Furthermore, 30 stores will be included in the Premium Project to offer customers a high-end experience with higher quality perishables and customer service and a unique assortment.

The Company also announced two pilot projects for the Extra Super banner to increase penetration in its target public:

- Compre Bem: The pilot project involves the conversion of 20 stores in order to enter a market niche currently dominated by regional supermarkets. The store model will be better adapted to the needs of consumers in the regions where the stores are located. The service and assortment of the perishables category will be strengthened, while other categories will have a leaner assortment. Compre Bem will be managed independent of the Extra Super banner, with the focus on simplifying operating costs, especially logistics and IT.
- Mercado Extra: pilot project at 10 stores, with 4 stores already opened in 2T18. The goal is to reinvigorate Extra Super by reinforcing the quality of perishables and customer service, with the focus on the B and C income groups. There will be no change in the operating model of the stores, which will continue to be managed by the Extra banner.

About GPA: GPA is Brazil's largest retailer, with a distribution network comprising over 2,000 points of sale as well as electronic channels. Established in 1948 in São Paulo, it has its head office in the city and operations in 18 Brazilian states and the Federal District. With a strategy of focusing its decisions on customers and better serving them based on their consumer profile in the wide variety of shopping experiences it offers, GPA adopts a multi-business and multi-channel platform consisting of brick-and-mortar stores and e-commerce operations, divided into three business units: Multivarejo, which operates the supermarket, hypermarket and Minimercado store formats, as well as gas stations and drugstores under the Pão de Açúcar and Extra banners; Assaí, which operates in the cash-and-carry wholesale segment; GPA Malls, responsible for the management of real estate assets, expansion projects and inauguration of new stores; and Via Varejo's discontinued operations, with its brick-and-mortar electronics and home appliances stores under the Casas Bahia and Pontofrio banners, and the e-commerce segment.

Disclaimer: Statements contained in this release relating to the business outlook of the Company, projections of operating/financial results, growth prospects of the Company and market and macroeconomic estimates are merely forecasts and are based on the beliefs, plans and expectations of Management in relation to the Company's future. III. Appendix

Glossary

Food Segment: Represents the combined results of Multivarejo and Assaí, excluding equity income (loss) from Cdiscount, which is not included in the operating segments reported by the Company. Includes retail and wholesale activities of products in general, including - but not limited to - food products, clothing, hygiene, medicines, fuel, furniture, consumer electronics and domestic utilities. These activities are carried out in both physical and virtual establishments.

Discontinued Operations: Due to the ongoing divestment of the interest held by GPA in Via Varejo S.A., the operations of Via Varejo are treated as discontinued operations. Accordingly, net sales and other profit or loss accounts were adjusted retrospectively, as required by IFRS 5/CPC 31, approved by CVM Resolution 598/09 – Non-current assets held for sale and discontinued operations.

Growth and changes: The growth and changes presented in this document refer to variations from the same period last year, except where stated otherwise.

EBITDA: EBITDA is calculated in accordance with Instruction 527 issued by the Securities and Exchange Commission of Brazil (CVM) on October 4, 2012.

Adjusted EBITDA: Measure of profitability calculated by excluding Other Operating Income and Expenses from EBITDA. Management uses this measure in its analyses as it believes it eliminates nonrecurring expenses and revenues and other nonrecurring items that could compromise the comparability and analysis of results.

Earnings per share: Diluted earnings per share are calculated as follows:

- Numerator: profit for the year adjusted by dilutive effects from stock options granted by subsidiaries.
- Denominator: the number of shares of each category adjusted to include potential shares corresponding to dilutive instruments (stock options), less the number of shares that could be repurchased in the market, as applicable.

Equity instruments that must or may be settled with the shares of the Company and its subsidiaries are only included in the calculation when their settlement has a dilutive impact on earnings per share.

The accounting information intermediate and consolidated regarding the semester ended June 30, 2018 were approved by the Board of Directors on July 24, 2018.

2. Basis of preparation - Continued

As a result of the process in progress for the sale of the subsidiary Via Varejo S.A. (note 32 on the financial statements for year ended December 31, 2017, presented in February 19, 2018) and in accordance to the CPC 31 / IFRS 5 – Non current assets held for sale and discontinued operation, the individual and consolidated interim financial information of the statement of the operations and the statement of the added value for the semesters ended June 30, 2018 and June 30, 2017 were presented with the effects of the transaction.

4. Significant accounting policies

The significant accounting policies adopted by the Company in the preparation of the individual and consolidated interim financial information are consistent with those adopted and disclosed on Note 4 of the financial statements for the year ended December 31, 2017 and therefore should be read in conjunction with those annual financial statements, in note 5.1. and the policy of recognition and measurement of income tax in the interim period described in Note 19.1.

5. Adoption of new procedures, amendments and interpretations of pronouncements issued by IASB and CPC and standards published and not yet in force

5.1. Amendments to IFRS and new interpretations applicable mandatorily as of January 1, 2018

The changes in accounting policies were also reflected in the Company's consolidated quarterly information for the semester ended June 30, 2017.

The Company adopted for the first time CPC 47 / IFRS 15 Revenue from Contracts with Customers (see 5.1.1), CPC 48 /IFRS 9 Financial Instruments (see 5.1.2) as of January 1, 2018 and the Revision of Technical Pronouncements – No. 12/2017 as of January 1, 2018. A series of other new standards are effective as of January 1, 2018, although they have no material impact on the Company’s financial statements.

The effect of the first-time adoption of these standards is mainly due to the following:

- Reclassification of bonuses received from suppliers;
- Reclassification of financial assets, with impacts on shareholders’ equity (see note 5.1.2);
- Reclassification of the impacts of withheld taxes on share-based compensation (see Note 5.1.3);
- An increase in impairment losses recognized in financial assets (see Note 5.1.2).

5. Adoption of new procedures, amendments and interpretations of pronouncements issued by IASB and CPC and standards published and not yet in force – Continued

5.1. Amendments to IFRS and new interpretations applicable mandatorily as of January 1, 2018 - Continued

5.1.1. CPC 47 / IFRS 15 Revenue from contracts with customers

CPC 47 / IFRS 15 establishes a comprehensive framework to determine if, when and for how long revenue is recognized. It substitutes CPC 30 / IAS 18 Revenue, CPC 17 / IAS 11 Construction Contracts and their respective interpretations.

The Company adopted CPC 47 / IFRS 15, with the effect of first-time adoption of the standard with retrospective effects (i.e. January 1, 2017). Consequently, we restated the Statement of income, statement of added value, statement of changes in shareholders equity and balance sheet, for the period reported previously in accordance with CPC 30 / IAS 18, CPC 17 / IAS 11 and the respective interpretations.

The effect of the adoption of CPC 47 / IFRS 15 is related to the classification of bonuses received from suppliers as deductions from the cost of sales instead of from administrative and selling expenses.

The details of the new significant accounting policies and the nature of the changes to previous accounting policies in relation to the diverse goods and services of the Company are described below:

(i) Revenue

a) Sales of goods

Revenue from sale of goods is recognized at its fair value and, when control over the products is transferred to the buyer, the Company and its subsidiaries cease to hold control or liability over the goods sold and the economic benefits generated for the Company and its subsidiaries are probable. No revenue is recognized if its realization is uncertain.

b) Service revenue

Since the Company and its subsidiaries are holders of policies on extended warranty insurance, financial protection insurance and personal accident insurance, and are sales agents in technical assistance and prepaid phone recharge, revenues earned are presented net of related costs and recognized as profit or loss when it is probable that the economic benefits will flow to the Company and its subsidiaries and their amounts can be measured reliably.

c) Financial services revenue

Since consumer financing is an essential part of the business of the Company and its subsidiaries, for all financial instruments measured at amortized cost, financial revenue is recognized using the effective interest rate method, which discounts exactly the estimated future cash receipts through the expected life of the financial instrument, or in a shorter period of time, when applicable, from the carrying amount of the asset. Interest income is included under financial services, comprising gross profit in the income statement for the year. This practice is substantially related to discontinued activities.

5.1. Amendments to IFRS and new interpretations applicable mandatorily as of January 1, 2018 - Continued

5.1.1 CPC 47 / IFRS 15 Revenue from contracts with customers - Continued

d) Interest income

For all the financial assets measured at their amortized cost, interest income is recorded using the effective interest rate method, which is the discount rate of the estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, as applicable, from the carrying amount of the financial asset or liability. Interest income is included in the financial result in the income statement for the year.

e) Returns and cancellations

Returns and cancellations are recognized when the sale is concluded. Estimates are based on sales volumes and the history of returns in each reporting segment. Revenue is recognized net of returns and cancellations.

(ii) Cost of goods sold

The cost of goods sold comprises the cost of purchases net of discounts and bonuses received from suppliers, changes in inventories and logistics costs.

Bonuses received from suppliers are measured based on the contracts and agreements between the parties.

Cost of sales includes the cost of logistics operations managed or outsourced by the Company and its subsidiaries, and includes warehousing, handling and freight costs incurred until the goods are available for sale. Transport costs are included in acquisition costs.

5.1.2 CPC 48 / IFRS 9 Financial Instruments

CPC 48 / IFRS 9 establishes the requirements for recognition and measurement of financial assets, financial liabilities and some contracts for purchase and sale of non-financial items. This standard replaces CPC 38 / IAS 39 – Financial Instruments: Recognition and Measurement.

CPC 48 / IFRS 9 retains most of the current requirements of CPC 38 / IAS 39 for the classification and measurement of financial liabilities. However, it eliminates previous categories of CPC 38 / IAS 39 for financial assets: held-to-maturity, loans and receivables and available-for-sale.

The adoption of CPC 48 / IFRS 9 did not have a significant impact on the Company's accounting policies related to financial liabilities and derivative instruments (for derivatives used as hedging instruments, see item (iii) below). The impact of CPC 48 / IFRS 9 on the Classification and Measurement of Financial assets is described below.

5.1.2 CPC 48 / IFRS 9 Financial Instruments - Continued

In accordance with CPC 48 / IFRS 9, upon initial recognition, a financial asset is classified as measured: at its amortized cost, at fair value through other comprehensive income ("FVOCI") – debt instrument; FVOCI – equity instrument; or fair value through profit or loss ("FVPL"). The classification of financial assets according to CPC 48 / IFRS 9 is generally based on the business model in which a financial asset is managed and on the characteristics of its contractual cash flows. Embedded derivatives in which the main contracts is a financial asset under the scope of the standard are never separated. Instead, the hybrid financial instrument is fully evaluated for classification.

Details of the new significant accounting policies and the nature of changes to previous accounting policies in relation to the Company's goods and services is described below:

i) Classification and measurement of Financial Assets and Liabilities

A financial asset is measured at its amortized cost if it meets both of the following conditions and is not designated as measured at FVPL:

- It is held within a business model whose goal is to maintain financial assets to receive contractual cash flows; and
- Its contractual terms generate, on specific dates, cash flows that are related to the payment of principal and interest on the outstanding principal amount.

A financial asset is measured at FVOCI if it meets both of the following conditions and is not designated as measured at FVPL:

- It is held within a business model whose goal is achieved both through the receipt of contractual cash flows and through the sale of financial assets; and
- Its contractual terms generate, on specific dates, cash flows that are exclusively related to the payment of principal and interest on the outstanding principal amount.

Upon initial recognition of an investment in an equity instrument that is not held for trading, the Company may irrevocably choose to present subsequent changes in the fair value of the investment under other comprehensive income ("OCI"). This choice is made on an investment-by-investment basis.

5. Adoption of new procedures, amendments and interpretations of pronouncements issued by IASB and CPC and standards published and not yet in force – Continued

5.1. Amendments to IFRS and new interpretations applicable mandatorily as of January 1, 2018 – Continued

5.1.2. CPC 48 / IFRS 9 Financial Instruments - Continued

Any financial asset not classified as measured at their amortized cost or through FVOCI, as described above, are classified as FVPL. This includes all derivative financial assets. Upon initial recognition, the Company may irrevocably designate a financial asset that would otherwise meet the requirements to be measured at amortized cost or as FVOCI as FVPL if this eliminates or significantly reduces an accounting mismatch that would occur otherwise (fair value option available in CPC 48 / IFRS 9).

A financial asset (unless it refers to trade accounts receivable without a significant component of financing that is initially measured at the transaction price) is initially measured at fair value, plus, for an item that is not measured at FVPL, any transaction costs directly attributable to its acquisition.

Financial assets measures at FVPL – These assets are subsequently measured at fair value. The net result, including interest or revenue from dividends, is recognized in the result.

Financial assets at amortized cost – These assets are measured subsequent to amortized cost using the effective interest rate method. The amortized cost is reduced by impairment losses. Interest income, exchange gains and losses, and losses are recognized as profit or loss. Any gain or loss from derecognition is recognized as profit or loss.

Debt instruments at FVOCI – These assets are measured subsequently at fair value. Interest income calculated using the effective interest rate method, exchange gains and losses, and impairment losses are recognized as profit or loss. Other net income is recognized under OCI. In derecognition, the accumulated result under OCI is reclassified to result. On December 31, 2017, the amount under continuing operations was R$11 at the parent company and R$12 at the consolidated, and the amount under discontinued operation was R$64.

ii) Impairment of financial assets

CPC 48 / IFRS 9 replaces the “incurred loss” model of CPC 38 / IAS 39 with an expected credit losses model. The new impairment loss model applies to financial assets measured at amortized cost, contractual assets and debt instruments measured at FVOCI, but does not apply to investments in equity instruments (shares) or financial assets measured at FVPL, as per CPC 48 / IFRS 9, loan losses are recognized earlier than under CPC 38 / IAS 39.

According to CPC 48 / IFRS 9, provisions for losses are measured at one of the following bases:

- Credit losses expected for 12 months (general model): these are credit losses that result in possible default events within 12 months from the balance sheet date and, subsequently, in case of deterioration of the credit risk, throughout the life of the instrument.
- Full lifetime expected credit losses (simplified model): these are credit losses resulting from all possible default events over the expected life of a financial instrument.

5.1. Amendments to IFRS and new interpretations applicable mandatorily as of January 1, 2018 – Continued

5.1.2. CPC 48 / IFRS 9 Financial Instruments - Continued

ii) Impairment of financial assets - Continued

- Practical expedient: these are expected credit losses that are consistent with reasonable and sustainable information available, on the balance sheet date about past events, current conditions and forecasts of future economic conditions, which enable the verification of probable future loss based on the historical credit loss occurred in accordance with the maturity of securities.

The Company chose to measure provisions for losses from accounts receivable and other receivables and contractual assets at an amount that equals the credit loss expected for the full lifetime, and for trade accounts receivable, whose portfolio of receivables is fragmented, CDCI, rents receivable, wholesale accounts receivable and accounts receivable from freight companies, the practical expedient was applied through the adoption of a matrix of losses for each maturity range.

When determining whether the credit risk of a financial asset increased significantly since its initial recognition and while estimating the expected credit losses, the Company takes into account reasonable and sustainable information that is relevant and available free of cost or excessive effort. This includes quantitative and qualitative information and analysis, based on the Company's historical experience, during credit appraisal and considering information about projections.

The Company assumes that the credit risk of a financial asset increased significantly if the asset is overdue more than 90 days.

The Company considers a financial asset as in default when:

- there is little likelihood that the debtor will fully pay their obligations to the Company, without resorting to actions such as execution of guarantees (if any); or
- the financial asset is overdue more than 90 days.

The Company determined the credit risk of a debt security by analyzing the payment history, financial and macroeconomic conditions of the counterparty and the assessment of rating agencies, when applicable, thereby assessing each debt security individually.

The maximum period considered when estimating the expected credit loss is the maximum contractual period during which the company is exposed to the credit risk.

Measurement of expected credit losses – Expected credit losses are estimates weighted by the probability of credit losses based on historical losses and projections of related assumptions. Credit losses are measured at present value based on all cash insufficiencies (i.e. the differences between the cash flows owed to the Company according to contracts and the cash flows the Company expects to receive).

Expected credit losses are discounted by the effective interest rate of the financial asset.

5.1.2. CPC 48 / IFRS 9 Financial Instruments - Continued

ii) Impairment of financial assets - Continued

Financial assets with credit recovery problems – On each reporting date, the Company evaluates whether the financial assets recorded at amortized cost and the debt securities measured at FVOCI show any indication of impairment. A financial asset shows "indication of impairment loss" in the occurrence of one or more events with adverse impact on the estimated future cash flows of the financial asset.

Presentation of impairment loss – Provision for losses for financial assets measured at amortized cost are deducted from the gross book value of the assets.

For financial instruments measured at FVOCI, the provision for losses is recognized in OCI, instead of deducting the book value of the asset.

Impairment losses related to trade accounts receivable and other receivables, including contractual assets, are presented separately in the statement of income and OCI. As a result, the Company reclassified impairment losses of R$2 to selling expenses June 30, 2017, recognized under CPC 38/IAS 39.

Impairment of other financial assets is reported under "selling expenses", similarly to the presentation under CPC 38 / IAS 39.

Impact of the new impairment loss model – For assets within the scope of the loss model of CPC 48 / IFRS 9, impairment should increase and become more volatile. The Company determined that the application of the requirements for impairment under CPC 48 / IFRS 9 on January 1, 2018 resulted in an additional provision of R$6 in continuing operations.

The additional Provision of R$175 in discontinued operations is composed as follows:

	Discontinued operations 12.31.2017
Accounts receivable from credit card operators	24
Consumer financing CDCI	131
Accounts receivable from freight companies	9
Accounts receivable b2b	11
Total	**175**

Accounts receivable and contractual assets – The following analysis provides greater details on the calculation of expected credit losses related to accounts receivable and contractual assets when adopting CPC 48 / IFRS 9. The Company considers the model and some of the assumptions used in the calculation of these expected credit losses as the main sources of uncertainty in the estimate.

ii) Impairment of financial assets – Continued

Expected credit losses were calculated based on real experiences of credit loss in recent years. The Company calculated the rates of expected credit loss separately for lessees of wholesale properties, accounts receivable from credit card operators and other clients.

The positions within each group were segmented based on common credit risk characteristics, such as:

- Credit risk level and historical losses – for wholesale clients and property rental; and
- Delinquency status, default risk and historical losses – for credit card operators and other clients.

Transition – Changes in accounting policies resulting from the adoption of CPC 48 / IFRS 9 were applied retrospectively, except as described below.

- The following assessments were made based on facts and circumstances that existed on the date of initial adoption.
  - Determination of the business model in which a financial asset is held.
  - Designation and cancellation of prior designations of certain financial assets and liabilities measured at FVPL.
  - Determinations of variables related to estimates of impairment.
  - Designation of certain investments in equity instruments not held for trading at FVOCI.
  - All hedge relationships designated in CPC 38 / IAS 39 on December 31, 2017 met the criteria for hedge accounting pursuant to CPC 48 / IFRS 9 on January 1, 2018 and are, therefore, considered as continuing hedge relationships.

5.1.3 Revision of Technical Pronouncements – no.12/2017

The entity must apply the change set forth in IFRS 2 / CPC 10 – “Share-based payment” to account for the withholding of share funds to pay the tax authority for the tax obligation of the employee associated with the share-based payment. Consequently, the payment made must be accounted for as a deduction from capital for the retained shares, except to the extent that the payment exceeds the fair value on the date of settlement by the net value of the own equity instruments withheld. As such, the liability related to the withheld liabilities in the amount of R$10 at the parent company and R$13 in the consolidated of continuing operations, and R$8 in discontinued operations was reclassified to shareholders equity on the initial date of adoption, i.e. January 1, 2018.

5.2 New and revised standards and interpretations already issued and not yet adopted

The Company is assessing the impacts of adopting “IFRS 16 – Lease,” and significant impacts are expected, which are currently being measured and are expected to be concluded by the end of 2018.

20.3. Tax

As per prevailing legislation, tax claims are subject to monetary indexation, which refers to an adjustment to the provision according to the indexation rates used by each tax jurisdiction. In all cases, both the interest charges and fines, when applicable, were computed and fully provisioned with respect to unpaid amounts.

The main provisioned tax claims are as follows:

20.3.1. PIS and COFINS

Since the adoption of the noncumulative regime to calculate PIS and COFINS, Company and its subsidiaries have challenged the right to deduct ICMS from the calculation basis for both contributions. On March 15, 2017, STF ruled that ICMS should be excluded from the calculation basis of PIS/Cofins, in accordance to the thesis pleaded by the Company.

Since the decision of the STF on March 15, 2017, the procedural steps were within the anticipated by our legal advisors without any change in the management's judgment regarding the reversal of the provision for lawsuits on this previously registered subject, however without there being a final decision expected on the subject, related to the judgment of the appeal filed by the prosecution. The Company and its external legal counsel estimate that the decision related to the application of the effects will not limit the right of the judicial claim proposed by the Company, nevertheless, the elements of the process still pending of decision do not allow the recognition of the asset related to the credits to be measured since the Company started the claim in 2003. According to the preliminary evaluation, based on the available information on December 31, 2017, the Company estimates the potential of its tax credits for the retail activity in the second quarter of 2018 to be between R$1,300 to R$1,650. The portion related to Assai are in process of calculation.

Still in relation to the theme, as disclosed in Via Varejo's financial statements of June 30, 2018, the tax credits for this subsidiary, classified as discontinued operations, were estimated approximately R$1,382, begin R$949 of discontinued operations and R$ 433 of continued operations is attributed to the Company due to an agreement between shareholders and the Company.

Regarding the remainder accrued amount for other discussions related to PIS and COFINS includes challenging of tax offset and other small amounts, as of June 30, 2018 represent R$222, being R$75 of continued operations and R$147 of discontinued operations (R$184 as of December 31, 2017, being R$74 of continued operation and R$110 of discontinued operations).

20.3.2. Tax claims

After entering in the special program on tax settlements, the Company analyzed the other tax claims, together with its external legal counsel, and determined them to be as probable losses and accrued by the Company. These refer to: (i) challenge on the non-application of the Accident Prevention Factor - FAP for 2011; (ii) challenge on the State Finance Department on the ICMS tax rate calculated on electric energy bills; (iii) other minor issues. The amount accrued for these matters as of June 30, 2018 is R$177 of continued operation (R$184 as of December 31, 2017, beging R$183 of continued (operation and R$1 of discontinued operations).

ICMS

The Federal Supreme Court ("STF") on October 16, 2014 decided that ICMS taxpayers that trade products included in the “basked of food staples” have no right to fully utilize the ICMS credits. The Company, with the assistance of its legal counsel, decided to record a provision for this matter amounting to R$125 as of June 30, 2018 (R$142 as of December 31, 2017) since this claim was considered a “probable” loss. The amounts accrued represent Management’s best estimate of the probable cash disbursement to settle this claim.

Additionally, there are cases assessed by São Paulo State tax authorities related to the refund of ICMS over tax substitution without proper compliance with accessory tax obligations introduced by CAT Administrative Rule 17. Considering recent court decisions the Company accrued R$205 (R$167 in December 31, 2017) representing the best estimation of probable loss evaluated by management based on documentation evidence aspect of the claims.

20.3.3. Supplementary Law 110/2001

The Company claims in court the eligibility to not pay the contributions provided for by Supplementary Law 110/01, referring to the FGTS (Government Severance Indemnity Fund for Employees) costs. The accrued amount as of June 30, 2018 is R$88 being R$80 of continued operation and R$8 of discontinued operations (R$72 of continued operation as of December 31, 2017 being R$71 of continued operation and R$1 of discontinued operations).

20.3.4. Others contingent tax liabilities - Via Varejo

Provisions for contingent tax liabilities were recorded as a result of the business combination with Via Varejo, as required by CPC 15 (IFRS 3). As of June 30, 2018, the recorded amount is R$91 (R$90 as of December 31, 2017). These accrued claims refer to administrative proceedings related to the offset of tax debts against credits from the contribution levied on coffee exports.

20. Provision for contingencies – Continued

- The Company and its subsidiaries answer to legal claims related to penalties applied by regulatory agencies, from the federal, state and municipal administrations, among which includes Consumer Protection Agencies (Procon), National Institute of Metrology, Standardization and Industrial Quality (INMETRO) and Municipalities and some lawsuits involving contract terminations with suppliers. In October 11, 2017 the Court for the Southern District of New York approved preliminarily an agreement with the plaintiffs' shareholders.

Subject to the settlement agreement's terms, a fund of $28.5 million will become available by Cnova N.V. for distribution amongst the former Cnova shareholders as well as to the plaintiffs' lawyers. A portion of this amount will be used to cover the settlement fund's administrative costs. In addition, subject to the terms of the settlement, all defendants are acquitted of all liability emanating from the allegations made in the class action suit. Following the March 15, 2018 hearing, the court entered on March 19, 2018 the final order giving the definitive approval to the settlement, closing the judicial proceedings with the United States District Court for the Southern District of New York and releasing defendants of the claims alleged against them accordingly. In the coming period, notices will be sent by the plaintiffs' lawyer with more information concerning the settlement. The vast majority of this settlement amount was funded by Cnova N.V. insurers. The remainder as well as all expected related costs were covered by Cnova's provision recorded in 2016 representing insurance deductible and total legal costs. Accordingly, the settlement has no material impact on Cnova N.V. net results.
